HARWINDER KAUR

Full stack web developer

harwindercode@gmail.com | (768) 197-0767 | Ludhiana, Punjab

Portfolio | HackerRank | GitHub

EDUCATION

Chandigarh University (CU) Chandigarh   Punjab, IND
Computer science Engineering B.E   Aug 2020 - June 2024
CGPA: 8.4

SKILLS

Programming Languages:	C++, Javascript, HTML, CSS
Libraries/Frameworks:	Reactjs
Tools / Platforms:	Vs Code, Git, Postman
Databases:	Postgresql, MongoDB

PROJECTS / OPEN-SOURCE

Travel Website | Link   *HTML,CSS, Font Awesome, Media Queries*
- Developed a fully responsive travel blog showcasing India's top destinations, cuisine, culture, festivals, and travel tips.
- Wrote clean, semantic code following W3C standards, improving accessibility and searchability.
- Implemented user-friendly UI using HTML, CSS, and vanilla JavaScript, ensuring optimal performance across devices with media queries.
- Used Font Awesome for icons and Unsplash/Pexels for optimized image assets to enhance user experience.

Ha-Sha E-commerce Beauty Store | Link   *React 19, Node.js, Express.js, MongoDB (Mongoose), Axios, JSON Web Tokens (JWT)*
- Developed a visually appealing and fully responsive frontend using ReactJS with Styled-Components to enable modular and reusable UI components.
- Implemented user authentication and authorization using JWT, allowing secure registration and login functionality.
- Used MongoDB to store and manage user data and product information, enabling a personalized shopping experience.
- Built robust RESTful APIs using Node.js and Express.js, ensuring seamless interaction between the frontend and backend.

Resume Builder   *ReactJS, Tailwind CSS, React Router, AI Integration, jsPDF, Responsive Web Design*
- Developed a clean and dynamic multi-panel layout using ReactJS and Tailwind CSS, ensuring seamless user experience with fast rendering and modern design aesthetics.
- Included PDF export capability using jsPDF and html2canvas, enabling users to download polished, print-ready resumes in a single click.
- Implemented a multi-step form wizard to collect and organize user inputs such as personal details, education, experience, projects, and skills in a structured format.
- Built Login and Registration features using React Router and Context API, providing secure and persistent user session handling.

CERTIFICATIONS

- Frontend Developer (React) Certificate - **HackerRank**
- Leadership and Negotiation Skills - Coursera.
- Excellence Award in academics - Chandigarh university.
